

# Microsoft Dynamics CRM for IT Services

Your business systems are essential to your success, but the question is...

are they working for you, or holding you back?

You have projects to manage, resources to schedule and service contracts to deliver...

...but are your systems up to scratch?

What if you could harness the power of Microsoft Dynamics CRM?

And have your system in just 30 days, with simple monthly pricing?

**You can!**

Introducing

## DYNAMICS IT

Microsoft Dynamics CRM tailored for IT services

Take Microsoft Dynamics CRM's powerful

Sales

Marketing

Customer Service

...and add fully integrated

Project Management

Resource Management

Time & Expenses Management

Need to know whether your projects are on schedule or at risk of overrunning budgets and deadlines?

Wondering what your engineers' utilisation will be next month?

Struggling to track time and expenses to drive your billing?

Is your essential business data lost in disconnected systems, spreadsheets and emails?

Taking hours to manage and slowing business to a crawl

Wouldn't it be great to have your data at your fingertips, whenever and wherever you need it?

Dynamics IT delivers all this and more - right out of the box

And what's more...

Our **rapid deployment process** gets you up and running in just 30 days

**Pay as you go** pricing keeps costs manageable and part of your operational budget

Our **Customer Success Program** gives you the support and guidance to make Dynamics IT a success in your business
